

Adelaide SEO Adelaide Search Engine Optimisation Adelaide's 'Rank Success' #1 in Search Engines

Adelaide SEO

Search Engine Optimisation Package

\$770.00

Search Engine Audit

The Search Engine audit reports on where the client site is currently situated in the clients chosen search engines utilising the clients chosen search keyword sets. The audit provides competitive information about the market

itself and the precise competition for those specific keyword sets. The information gleaned assists to devise the strategy so very specific and measurable improvements can be made and monitored to each and every keyword set/search engine combination.

Site Analysis & Keyword Update

A Site Analysis will be conducted on the customer's site. As part of the analysis the Metatags (Keyword, Page Description, Title, Alt Text, etc.) will be updated on the primary pages (up to 5 pages) to make them consistent with both the designated keyword sets as well as the intelligence discovered in the

Search Engine Audit.

This updating process includes reviewing and updating page content to comply with the agreed Metatags if edit access is made available.

Site Analysis

Strategies for improvement

and Implementation of improvements

- o Site update (as per analysis findings)
- o Meta update (as per analysis findings)

Search Engine Submission
