Please note the audit (\$385.00) is to be paid within 7 days of delivery. All other components are included in the 'pay per success fee' which is normally \$100 per top page ranking per search engine per agreed keyword set.

Considerable discounts apply for multiple search engines and multiple keyword sets.

In practice you nominate your 'keyword sets' and the search engines you want to achieve top page rankings on. We then audit those nominated search engines with the keywords supplied and compile the data.

Data analysis then determines strategy for and also becomes the benchmark to measure and charge for improvements.

This is called the 'Search Engine Audit'

The audit also provides the intelligence to determine likelihood of success which determines whether we accept the assignment on a 'per success' (only) fee based strategy.
